

## presto POWER Brake Cleaner

## Technical Information

presto POWER Brake Cleaner with higher pressure for even more effective cleaning. For removing oil, grease, dirt, brake fluid from brake drums, pads, discs, lines, cylinders and clutch parts.

It prevents brakes from squeaking and cleans engines, machines and other parts thoroughly without leaving a residue. Removes even acids.

**Ord.-no:** 315541, 307287, 531583, 449369

### Quality & properties

- Powerful, directed jet spray
- High solvent power
- Safe for use on o-rings and brake hoses
- Special chemical composition
- Dries quickly leaving no residue
- Sprayable from any angle due to a special 360° valve
- Acetone-free and free from aromatic
- Non corrosive
- Mechanical cleaning via concentrated spray jet
- Powerful degreaser; blocks infiltration of water

### Physical & chemical data

- Base: Aliphatic hydrocarbons
- Colourname: transparent
- Surfaces: brake drums, pads, discs, lines, cylinders and clutch parts.
- Minimum Working Temperature: 5 °C
- Maximum Working Temperature: 30 °C
- Flash point:
  - n.a. °C
  - n.a.
- Storage stability: 10 y
- Content:
  - 500 ML
  - 600 ML

### How to use

- Bring the can to room temperature.
- Operating temperature 5° to 30°C.
- Turn off live parts and electrical equipment before application and turn on ca. 15 minutes after (brake cleaner contains flammable solvents).
- Shake can for 2 minutes before use.
- Spray surface evenly until the dirt has disappeared.
- Use a brush on stubborn dirt.

### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of May 7, 2025** – This release replaces all eventually earlier issued versions.
