

## presto Industrial Cleaner

## Technical Information

Universal cleaner to remove anpolar and polar contaminations from parts, treated and untreated, of metal and various types of plastic. Industrial cleaner has high dissolving properties and leaves no residue. Industrial cleaner is non-conductive and non-corrosive. In view of the fast evaporation, industrial cleaner is very effective. presto Industrial Cleaner has a powerful jetspray and can be used in various positions.

**Ord.-no:** 505492

### Quality & properties

- Powerful jetspray
- High dissolving properties
- Leaves no residue
- Fast evaporation
- Non-conductive
- Non-corrosive
- 360° valve

### Physical & chemical data

- Base: Aliphatic hydrocarbons
- Colourname: transparent
- Minimum Working Temperature: 5 °C
- Maximum Working Temperature: 30 °C
- Flash point: 21 °C
- Storage stability: 10 y
- Content: 500 ML

### How to use

- Bring can to room temperature.
- Operating temperature 5° to 30°C.
- Cover live parts and turn off electrical equipment before use.
- Shake can for 2 minutes before use and test surface compatibility.
- Spray part to be treated until dirt disappears. Use a brush for stubborn dirt.

### Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

### Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

### Marking/Labelling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

**As of May 7, 2025** – This release replaces all eventually earlier issued versions.
